# helping you look after your business

Oratech enables companies to implement an affordable, flexible and feature rich shop management system to improve efficiency at lowest cost. We offer a highly reliable solution based on Oracle technology. The databases are proven, resilient and future proof, meaning your solution can and will grow with your business.

The Oratech system can be adapted to changing business requirements, removing the need for complete system changes and ensuring low cost of ownership without sacrificing operational efficiency.

The Oratech solution provides you with a shop management system for wholesalers, retailers and distributors whether you are small, medium or large scale. Our system can help you whether you have a single or a multiple location setup and our web enabled back office means you can access your system from anywhere at any time.

Oratech combines Oracle expertise, wholesale and retail experience, and first class customer service to provide you with easy to use and effective business management software. We are an Oracle Gold Partner which means our system has been reviewed and verified by Oracle.

Installing Oratech will enable you to regain control of your business and save you time and money.

It is an affordable, flexible and feature rich system to improve efficiency at lowest cost. The Oracle databases that we use are proven, resilient and future proof.

This means our solution can be adapted to changing business requirements and will grow with your business. You won't need complete system changes and by using Oratech you can be assured of ongoing low cost of ownership without losing efficiency and your competitive edge.

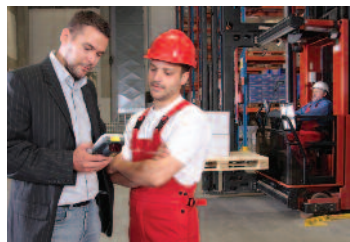

The web enabled back office also frees up the management to undertake other activities not based at site without ever losing touch or knowing exactly what is going on. For example the in-built notification, emailing and text message functionality allows real time updates. In addition, the remote stock and price checks

enable you to access accurate and up to date information from any smart phone at any time.

## Success stories

Using Oratech's advanced reporting features we have helped businesses go from loss into profit in under 6 months just by improving their stock management and releasing money previously tied up in slow moving items.

Another customer has drastically reduced the time it takes to fulfil internet orders by using Oratech's pick lists and automated tasks. They have been able to increase the number of orders and value of their sales without increasing their staff numbers. The staff are happier and better motivated as they are not wasting time on repetitive unnecessary tasks.

### With Oratech, take control of your...

- Business

## Oratech is...

**Affordable** – Our product is competitively priced and allows businesses of any size to reach the benefits normally only afforded by large scale corporates.

**Flexible** – We can offer you options that will fit your business needs now and in the future. Our bespoke solution is fully customisable, flexible and scaleable. Whether you need to meet new EU Directives or want to move your business to the internet, we can help.

**Reliable** – We have developed and designed our product making use of tried and tested Oracle database technology and we are proud to be part of the Oracle Partner Network.

## customer testimonials

“The implementation of the Oratech solutions was made much easier for the whole business with Ashok’s input and guidance. Oratech is a very user friendly system and does not impact heavily on users’ time. Simple administrative processes allow quick and easy updating of the system. At a glance review of stock held within specific or whole locations is a major benefit to our business with over 18 different business units around the UK. My only regret is that Ashok no longer works within our business.”

**George Curry**

Inventory Manager, MITIE plc

“Thanks to Oratech Solutions we now sell online as well and supply goods to customers all over the UK. Oratech has helped our business to easily keep track of stock levels and the reporting features have streamlined our purchasing and selling. It has also helped us manage our staff and time management. Not many systems have brought a smile to our customers, staff and suppliers!”

**Shafiq Ahmed**

Managing Director, Tison Tools Ltd

“Oratech Solutions was the perfect solution for our business needs, they created the highest quality professional solution at a price which I could afford. Not only did Oratech Solutions produce the exact requirements of my business, but they also incorporated new developments that we required at a later stage. I was thoroughly impressed with how quickly they created the system.”

**Vinny Hira**

Sales Director, Cannon Tools Ltd

“With Oratech we have developed our warehouse stock control, ePos and website systems. We have always found them to be very receptive to our business requirements, helping us to streamline, develop and automate a lot of our daily tasks. They are always open to new ideas and this has allowed us, with their guidance, to find innovative solutions to many problems as the boundaries of technology have progressed.”

**Vinay Morjaria**

Managing Director, Morjaria Toys and Gifts
